TOWN WARRANT

To the Inhabitants of the Town of Dublin, Qualified to Vote in
Town Affairs

You are hereby notified to meet at the Town Hall, in said Town, on Tuesday, the ninth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:—

First. To choose all necessary Town Officers, Agents, Auditors and Committees for the ensuing year.

Second. To hear the reports of Agents, Auditors, and Committees heretofore chosen and pass any vote relating thereto.

Third. To raise and appropriate such sums of money as may be necessary to defray town charges for the ensuing year and for any other purposes as mentioned in the budget.

Fourth. To see if the Town will authorize the Selectmen to appoint a police officer for one hundred days during the summer months and raise and appropriate such sum as will be necessary for the same.

Fifth. To see what action the Town will take in regard to constructing sidewalks and raise and appropriate money for the same.

Sixth. To see if the Town will vote to instruct the Selectmen to apply for State Aid.

Seventh. To see what action the Town will take on installing street lights on the Monument Road and raise and appropriate money for the same.

Eighth. To see if the Town will raise and appropriate money to paint the Town House or take any action relating thereto.

Ninth. To see what action the Town will take towards completing the wall and parking space west of Town House as petitioned and raise and appropriate money for the same.

Tenth. To see what action the Town will take towards acquiring or perpetuating the water trough at lower end of village and raise and appropriate for the same or pass any vote relating thereto.

Treasurer

Report of Road Agent

TOWN ROADS

Scraped all roads and cut bushes. Put in 2-10 inch tubes 16 ft. long, and 1-12 inch tube 20 ft long. Put in new stringers, plank bridge and railings near Chas. Pickford's also one at Knight's Mill. Replanked three other bridges. Widened three sharp turns in upper Jaffrey road. Put in about 800 yards of gravel and fill on different roads in town. Painted bridge by Naylor's two coats. Built 1116 feet snow fence.

REPORT OF SCHOOL BOARD

To the Citizens of the Dublin School District:

We herewith submit the one hundred and fourth report of our schools.

Although the School Board has nothing to report of such a spectacular nature or of such general interest as the last year's payment of the school house debt, it has, nevertheless, been working in the interests of education with earnest steadiness. Mr. Eaves was appointed by the board to fill the vacancy caused by the resignation of Mr. James and has served the town with intelligent zeal.

Our working force is now headed by our new superintendent, Mr. Lawton Chase and revised by the appointment of Mrs. Richardson and Miss Foster to No. 1 School and of Miss Beau-lieu to No. 3 School. Mrs. Proper is at the No. 2 School, as she was last year.

The aim of the superintendent, teachers and school board is to cooperate in working for an increasingly high standard of school work and for more and more attention to the development of each individual Dublin boy and girl.

The results of striving toward such a worthy aim are not always very tangible. They can never be recorded meticulously in a report; but our superintendent's introduction of many practical up-to-date methods, the teachers' day-by-day application and friendly interest in the pupils and the school board's constant attention to such lowly necessities as plumbing, broken windows, coal and wood supplies, all tend toward the learning of the three R's more efficiently and comfortably.

Mrs. Richardson has made several innovations in No. 1 School. She serves hot lunches at cost price, an improvement that has been appreciated by mothers as well as children. She now gives instruction in wood work to both boys and girls. This manual training is also self-supporting.

Mrs. Jeffrey Parsons presented the Dublin school children with a fine new dictionary for a New Year's gift and it is now in use at No. 1 School.

To encourage closer cooperation and mutual benefit we have inaugurated the practice of occasional meetings of the teachers, and school board and superintendent at which a prepared talk on some of our school problems shall be given, followed by an informal discussion. We hope that in time these meetings may grow so as to include interested parents.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Dublin, N. H.:

The rural school buildings need a certain amount of remodeling in exceedingly minor details, in order to make adequate use of the excellent general condition. The top lights are at present not available because of the prevailing type of window shade. At very small expense, the valuable remodeling done in respect to better lighting can be made usable.

The oiling of floors would not only reduce the dust menace, but would conserve the floors. A floor oiler would last for years, and would pay for itself out of the first year's saving in oil and labor alone.

Constant survey is the price of adequate achievement in any school system. Only by this procedure can the individual rating be arrived at; and by no other way is it possible to be of greatest assistance to the teaching staff. The work of Mrs. Richardson in this respect should be noted, and full opportunity provided for summaries should be afforded her by an adequate amount of standardized tests, supplementing the testing twice a year on achievement basis, and the weekly (in some cases daily) pre-testing.

The gathering up of the detail and data from six towns, with nearly fifty teachers and supervisors and assistants, is a task that takes too much time from actual supervision. For this reason the superintendent earnestly desires to express his thanks for the taking over of routine work by the school board. There is only so much time to be had, and where undue routine is present there is the less amount of time for the improvement of instruction.

We recommend that at some time a floor plug be placed in each of the school rooms equipped with electric current, in order that visual education in the form of lantern or moving pictures may be made available. Many organizations are at present offering these features for merely the cost of transportation of the material for projection. It is to be regretted that neither room in the village school is equipped with movable furniture, in order that more use may be made of a building that represents considerable of an expenditure.

A larger oil stove and suitable equipment would add to the usefulness of the "kitchen" in the village school, and add to the possibilities for its use for the youth of the town in boy or girl scout work or other activities.

Playground equipment is needed, not of the expensive type but chinning-poles, volley-ball equipment, basket ball stand-

ards, jumping and hurdling games, horizontal ladders and the like, and "see-saws" and more simple games for the lower grades. Play has no small part in the education of the whole child.

The need for a school nurse for follow-up work, health supervision, is apparent. We earnestly recommend the consideration of this matter.

Dublin, whether or not Dublin desires it, is one of the exceedingly well known towns in New England, because of its beauty and its school-wealth. Without increasing the budget we believe that it can live up to every expectation both for the summer colonies and for those who desire to enjoy, with their children, the manifold advantages of the town.

Courteously submitted,

LAWTON CHASE
Supt. of Schools
